Books, page xviii.

Authors, page xxi.

NOTE TO THE READER: There are in vogue so many synonyms for things and conditions that it is impossible here to enumerate them all (although many are listed); hence, the reader, if disappointed under one catchword, should exhaust the list of equivalent terms before giving up. (Example: Urotropin, formin, aminoform, cystamin, uritone, hexamethyltetramine. Or: Consumption, pulmonary cough, tuberculosis, phthisis.)
